Objective

Software Developer with hands-on experience designing and delivering robust, scalable applications using Java, React.js, Node.js, and MySQL. Proficient in backend engineering, RESTful API design, and crafting responsive, intuitive interfaces. Driven by an analytical mindset and a commitment to writing clean, maintainable code that delivers real-world impact.

Experience

React Intern, MarqWon Dynamics Pvt Ltd August 2025 - present

- Architected and delivered a full-stack Medicine Supply Chain Management system leveraging React.js, Node.js (Express), and MySQL.
- Engineered a comprehensive purchase module encompassing order placement, address management, and real-time order tracking.
- Designed and exposed RESTful APIs facilitating robust, seamless communication across frontend and backend layers.

Java Full Stack Development Intern, MarqWon Dynamics Pvt Ltd July 2025 - August 2025

- Conceptualized and launched Jewel Vault, a feature-rich web application for gold savings management and online jewelry commerce.
- Implemented a robust backend pipeline using Java Servlets, JDBC, and JSP to handle business logic, database connectivity, and dynamic UI rendering.

Skills

Hard Skills

Programming: Java, JavaScript, SQL

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: Node.js, Express.js, Java Servlets, JSP

Database: MySQL

Tools: Git, GitHub, VS Code, Eclipse, Netlify

Concepts: REST APIs, CRUD Operations

Soft Skills: Communication | Problem Solving | Teamwork | Adaptability | Time Management

Projects

Global Seafood Supply Chain Management System Project Link

- Architected a full-stack web platform connecting all supply chain stakeholders — suppliers, wholesalers, distributors, and retailers — under a unified system.
- Integrated IoT-based real-time monitoring and AI-driven analytics using CSV datasets to enable proactive inventory control and demand forecasting.
- Enhanced end-to-end transparency and slashed manual monitoring overhead, directly contributing to reduced seafood wastage.
- **Tech Stack:** React.js, Node.js, Express.js, MySQL

Library Management System Project Link

- Built a robust system to handle complete book lifecycle operations — inventory tracking, issuance, and returns.
- Automated key workflows, significantly reducing manual intervention and minimizing human error.
- **Tech Stack:** Java, MySQL

GameHub — Desktop Game Suite Project Link

- Engineered a collection of interactive desktop games including Tic-Tac-Toe and Snake with fully functional game logic and win/loss detection.
- Crafted an intuitive, responsive UI using Java Swing, prioritizing smooth user experience.

- **Tech Stack:** Java Swing

Education

Syed Ammal Engineering College , BE in Computer Science	2022 - 2026
• CGPA: 8.34	
National Academy matriculation school , Higher Secondary	2021 - 2022
• Percentage - 89	

Certifications

Core Java Certifications @SRM Infotech	2024
Html,Css,Javascript in cousera	2025
React in cousera	2025

Additional Information

Certification Achievement

Participated in Rally 2k24

participated in ISTE project

Languages – English, Tamil
